Vehicle theft increases by 2.5x in India in 2024, WagonR topping the charts: Report

One vehicle is stolen every 14 minutes in the national capital region as per a media report, with 105 cases of vehicle theft being reported, on average, every day in 2023

OFF LATELY, INDIA!

100 vehicles stolen daily in Delhi, roadside parking primary reason

Delhi parking wars intensify, over 7,000 calls to police this year

Residents prohibited from installing EV chargers in basement parking

➤ Delhi had **77.9 lakh** registered motor vehicles in 2012 and **122.5 lakh** vehicles in 2021

➤ Between 2012 and 2021, vehicle thefts increased **163%**, while vehicular population rose around 56%

➤ In 2018-2019, Delhi witnessed the sharpest spike, with cases rising by **221%** from 2012

➤ Around 100 vehicles stolen every day in 2022

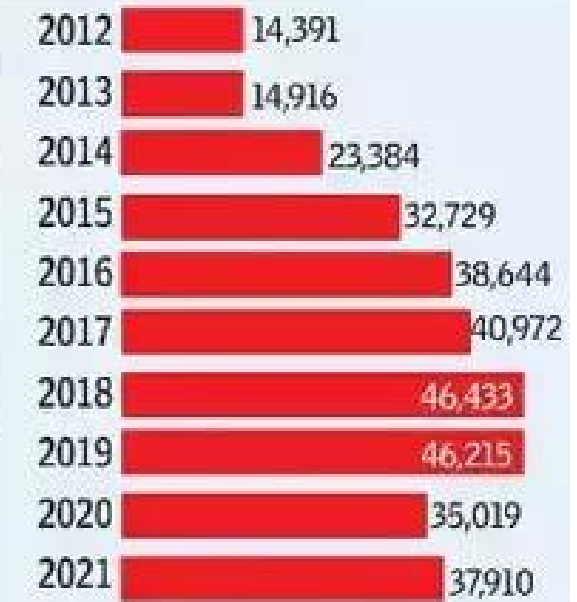

➤ Vehicle thefts registered online at crime branch, taking away pressure from local police station/cops

➤ Untraced report sent after 21 days automatically for insurance claims, reducing pressure for investigation

➤ Cops blame roadside parking outside colonies and Delhi's proximity to other state borders as major contributing factors

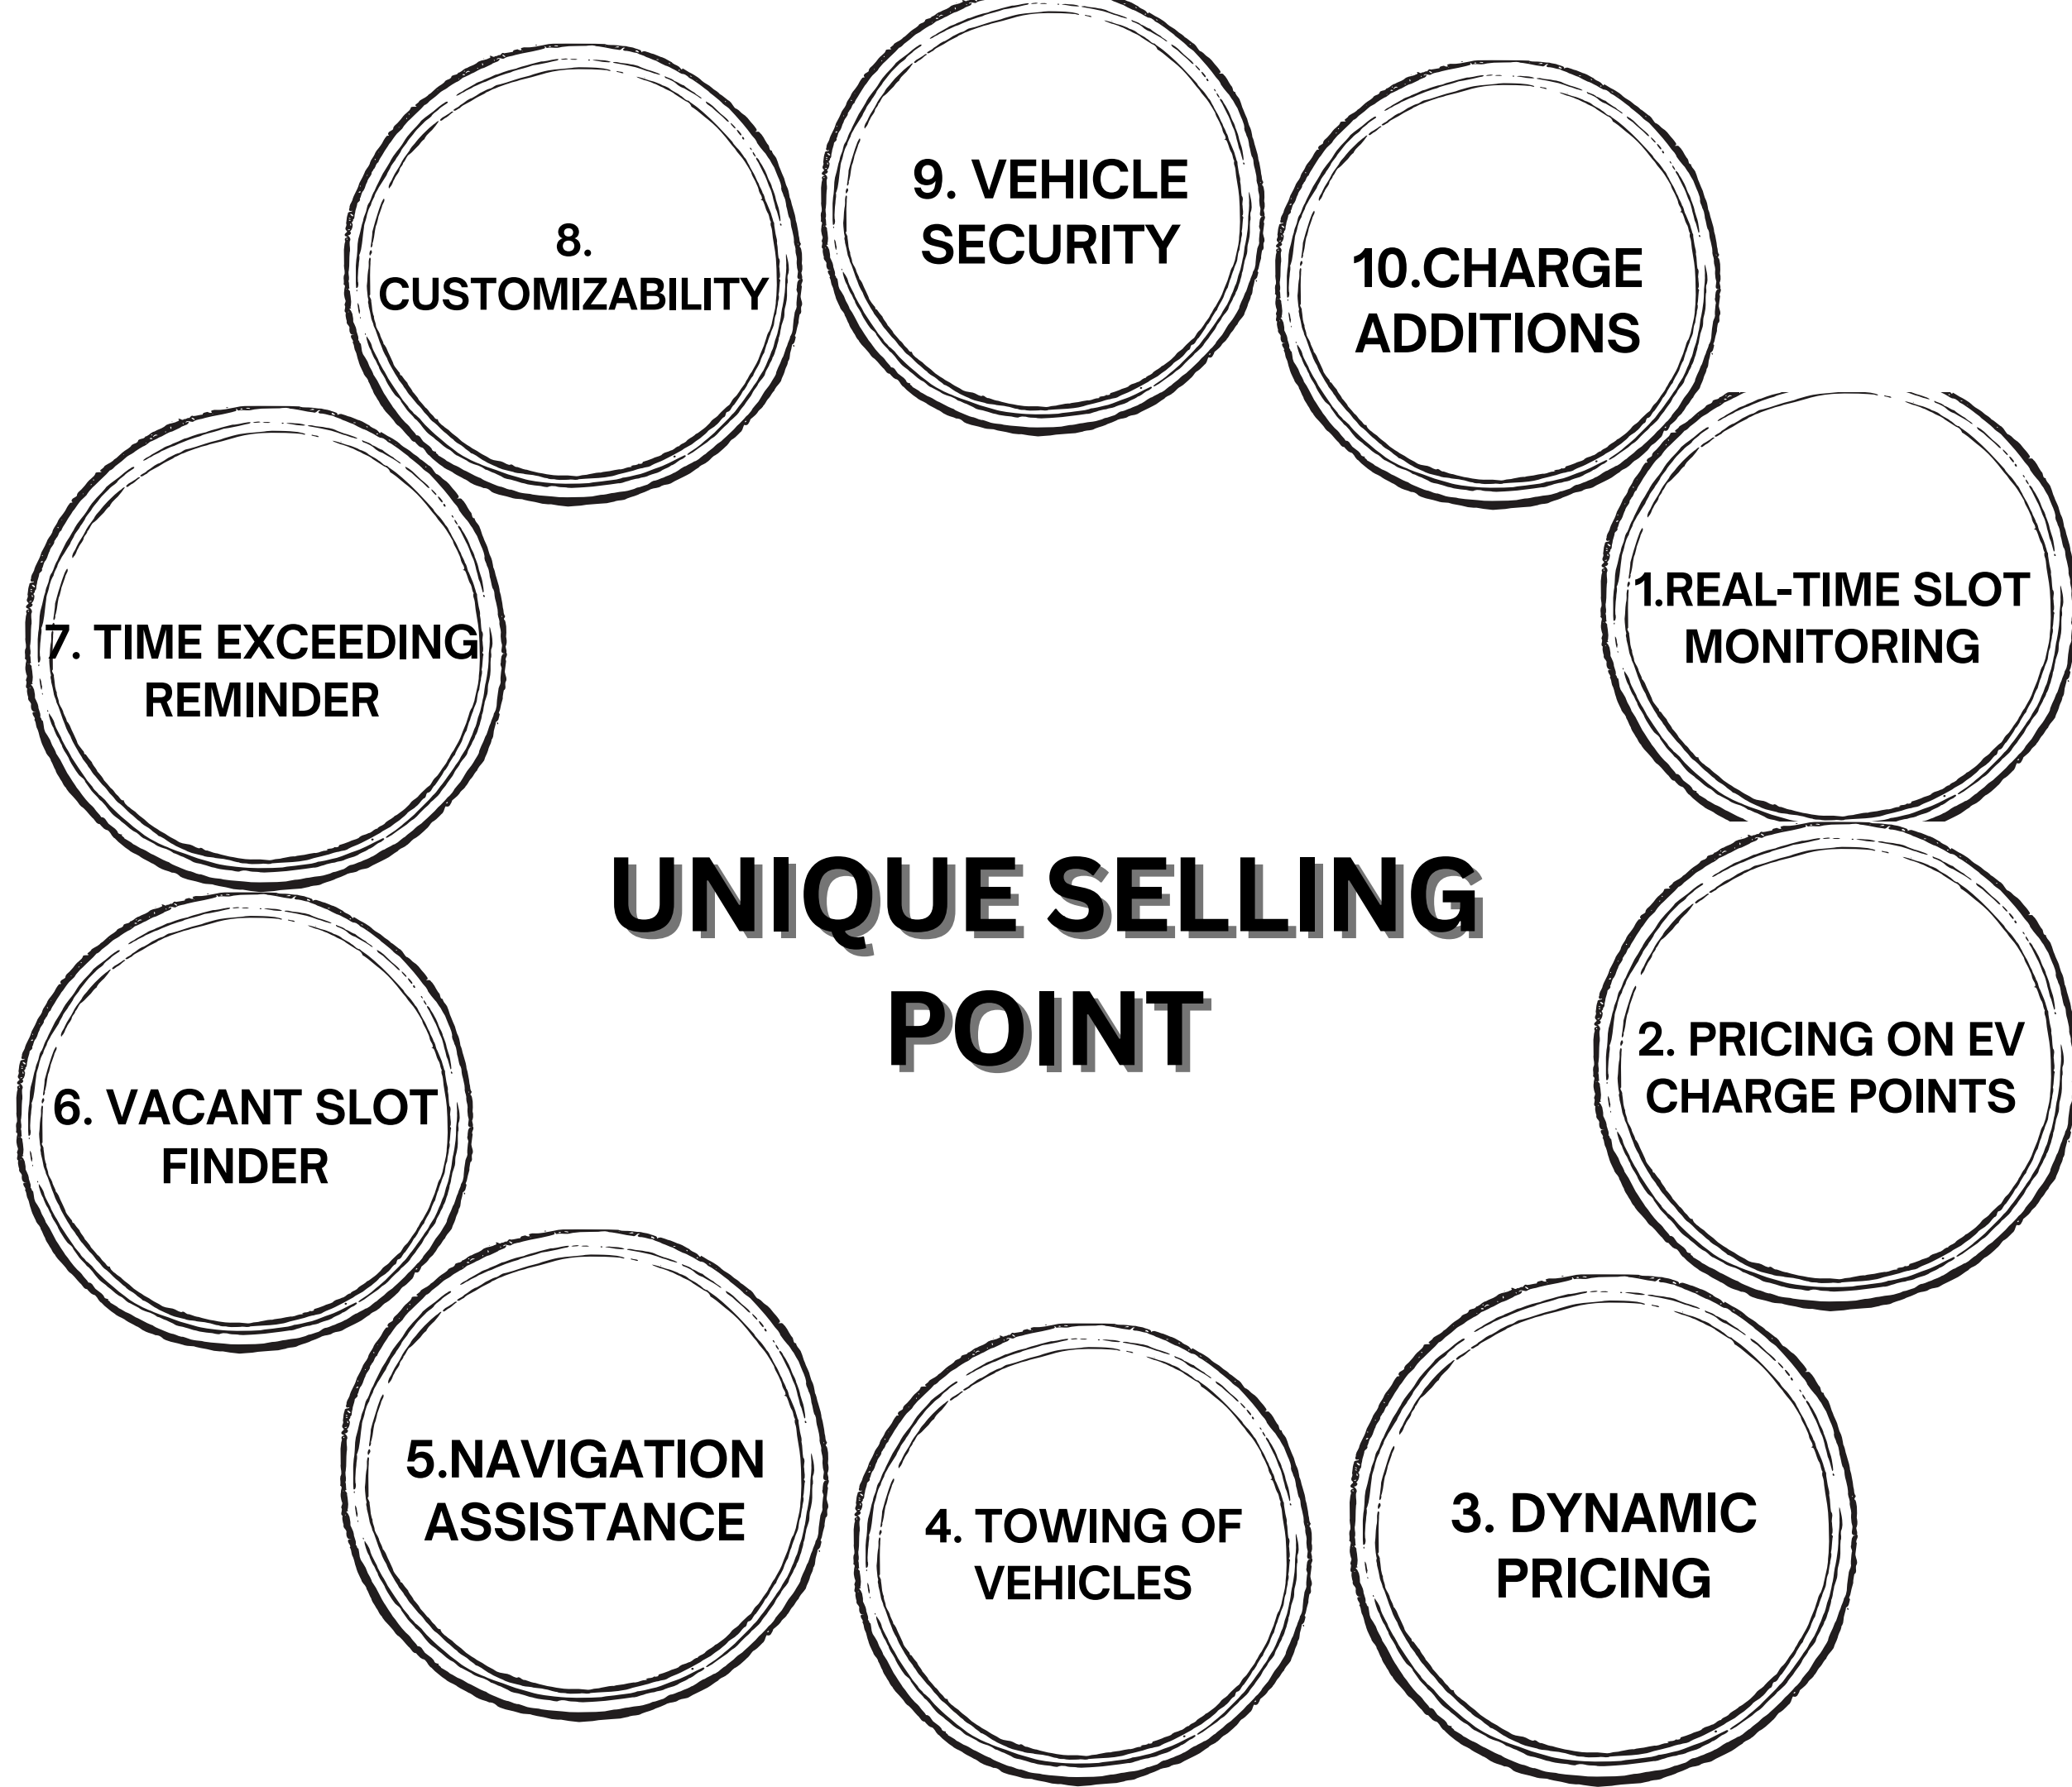

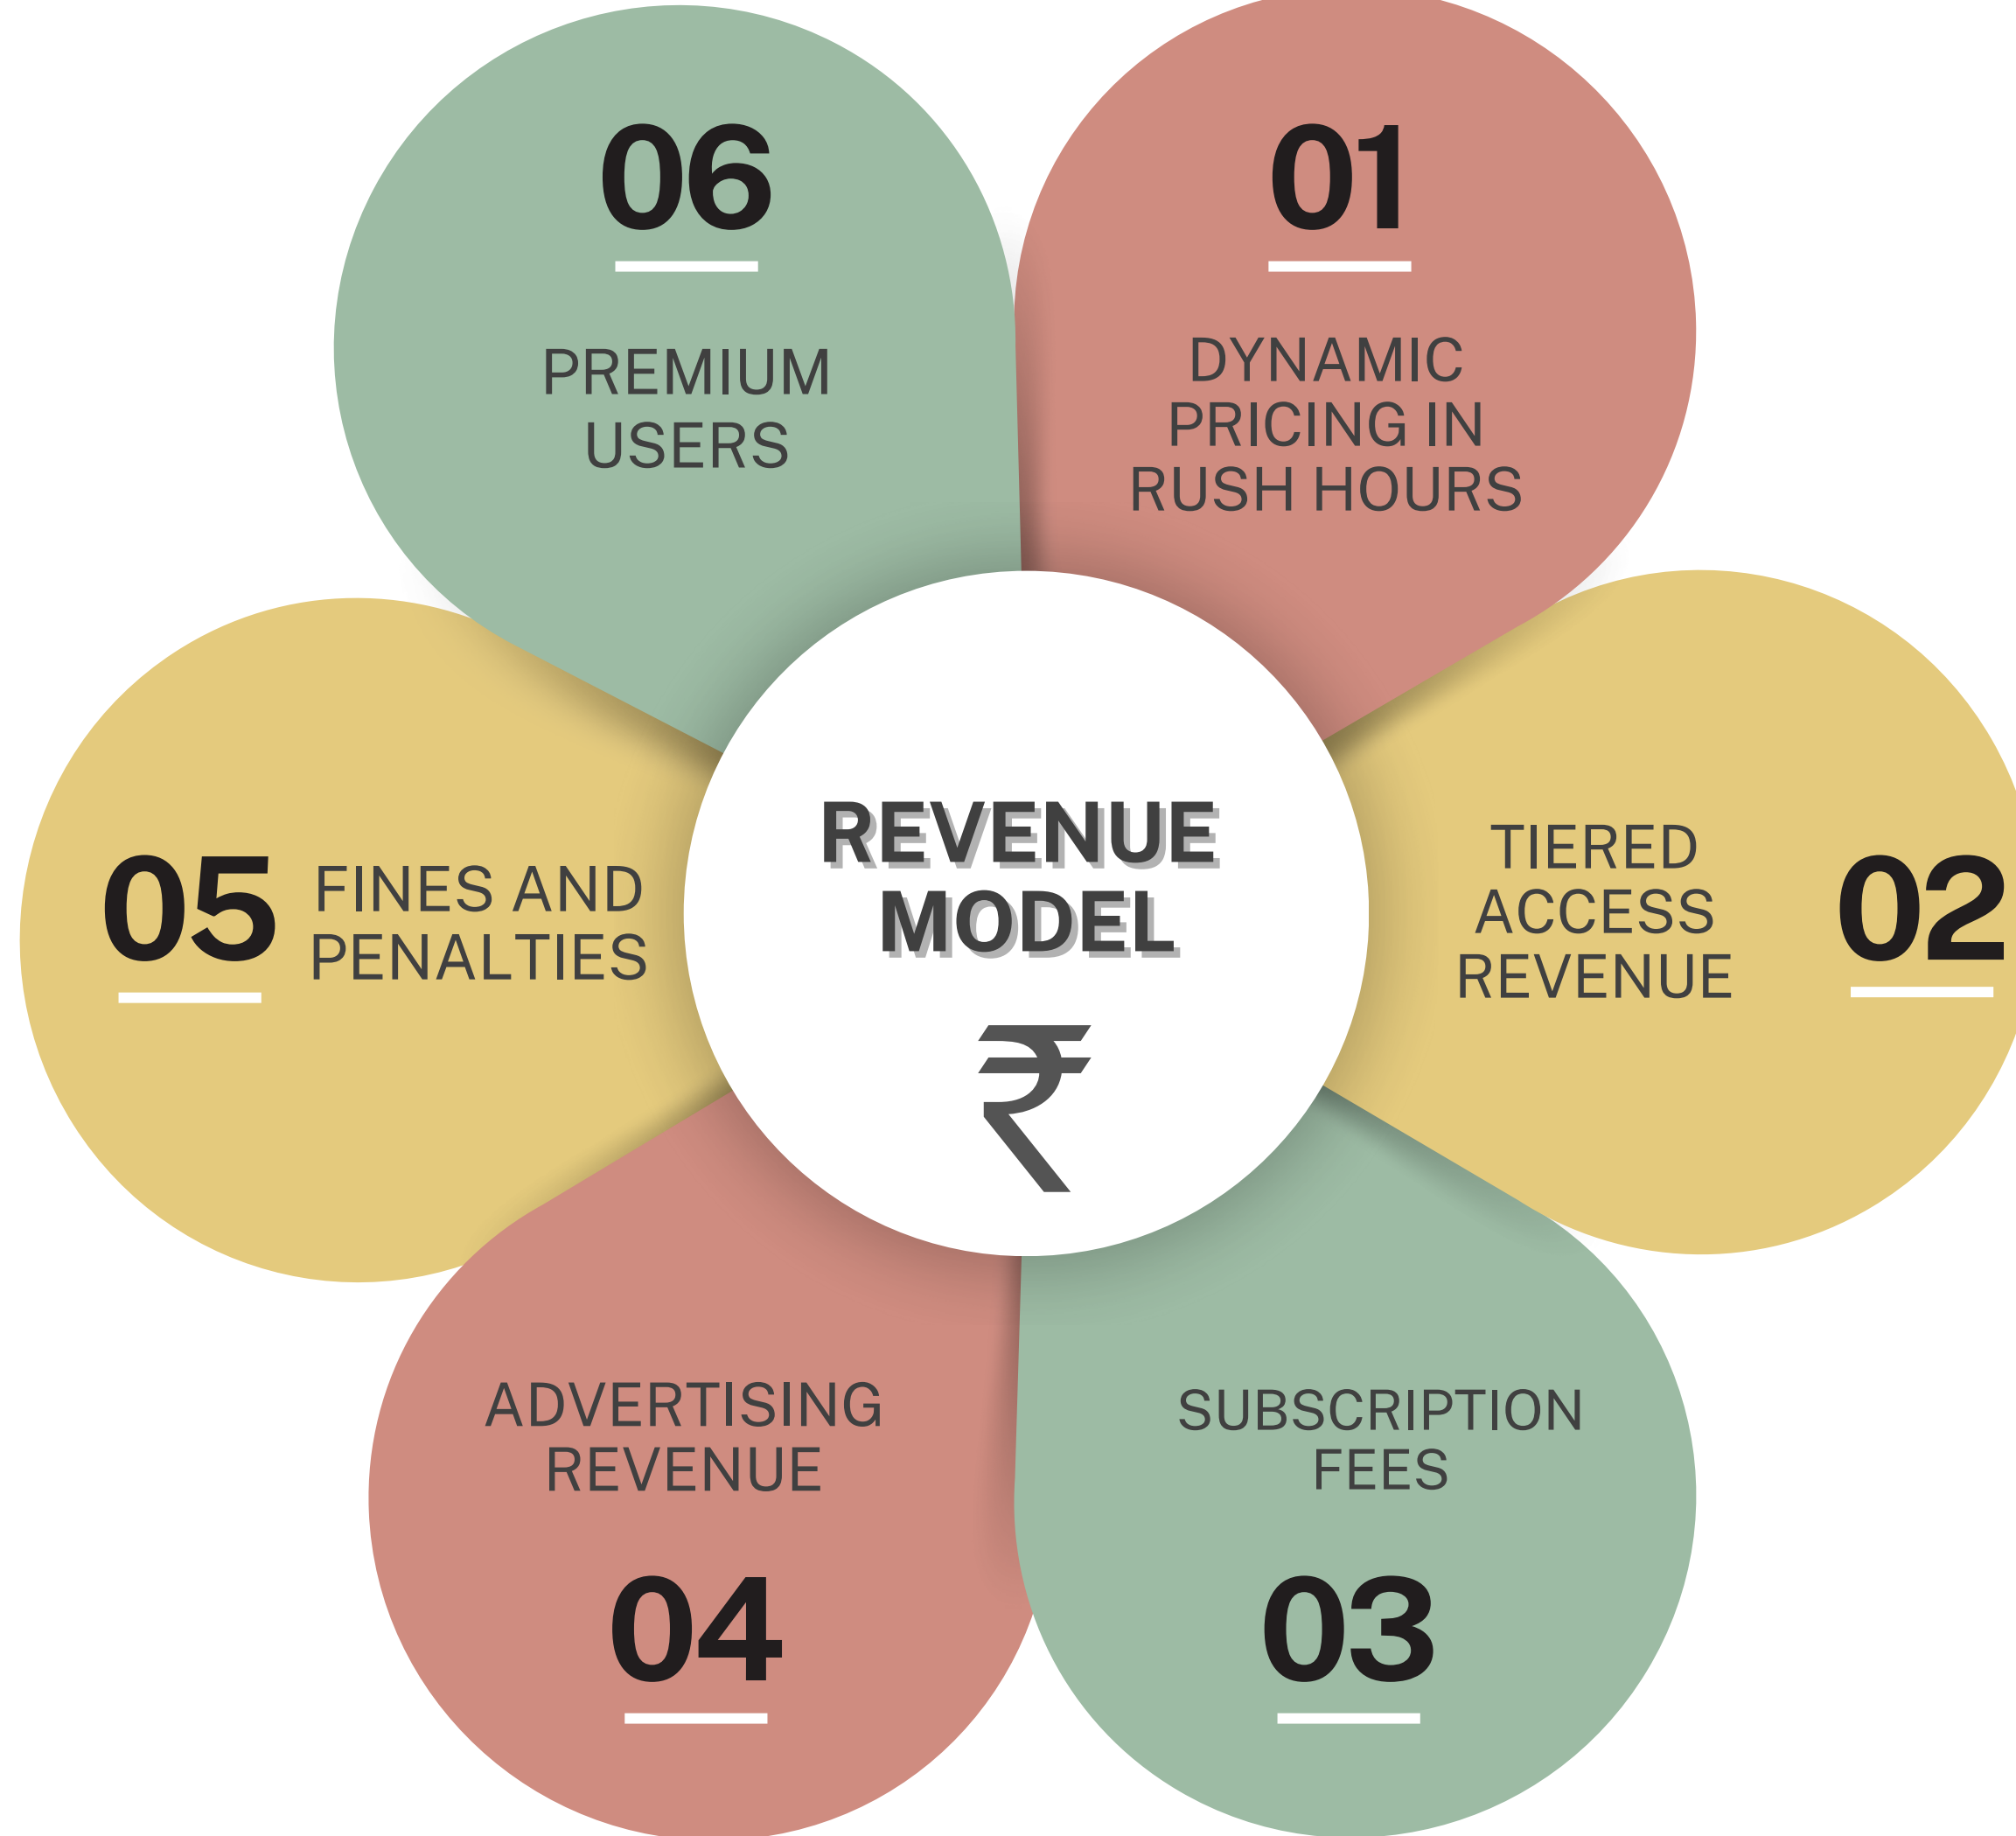

Comparative 2021-2022
(*Till July 15)

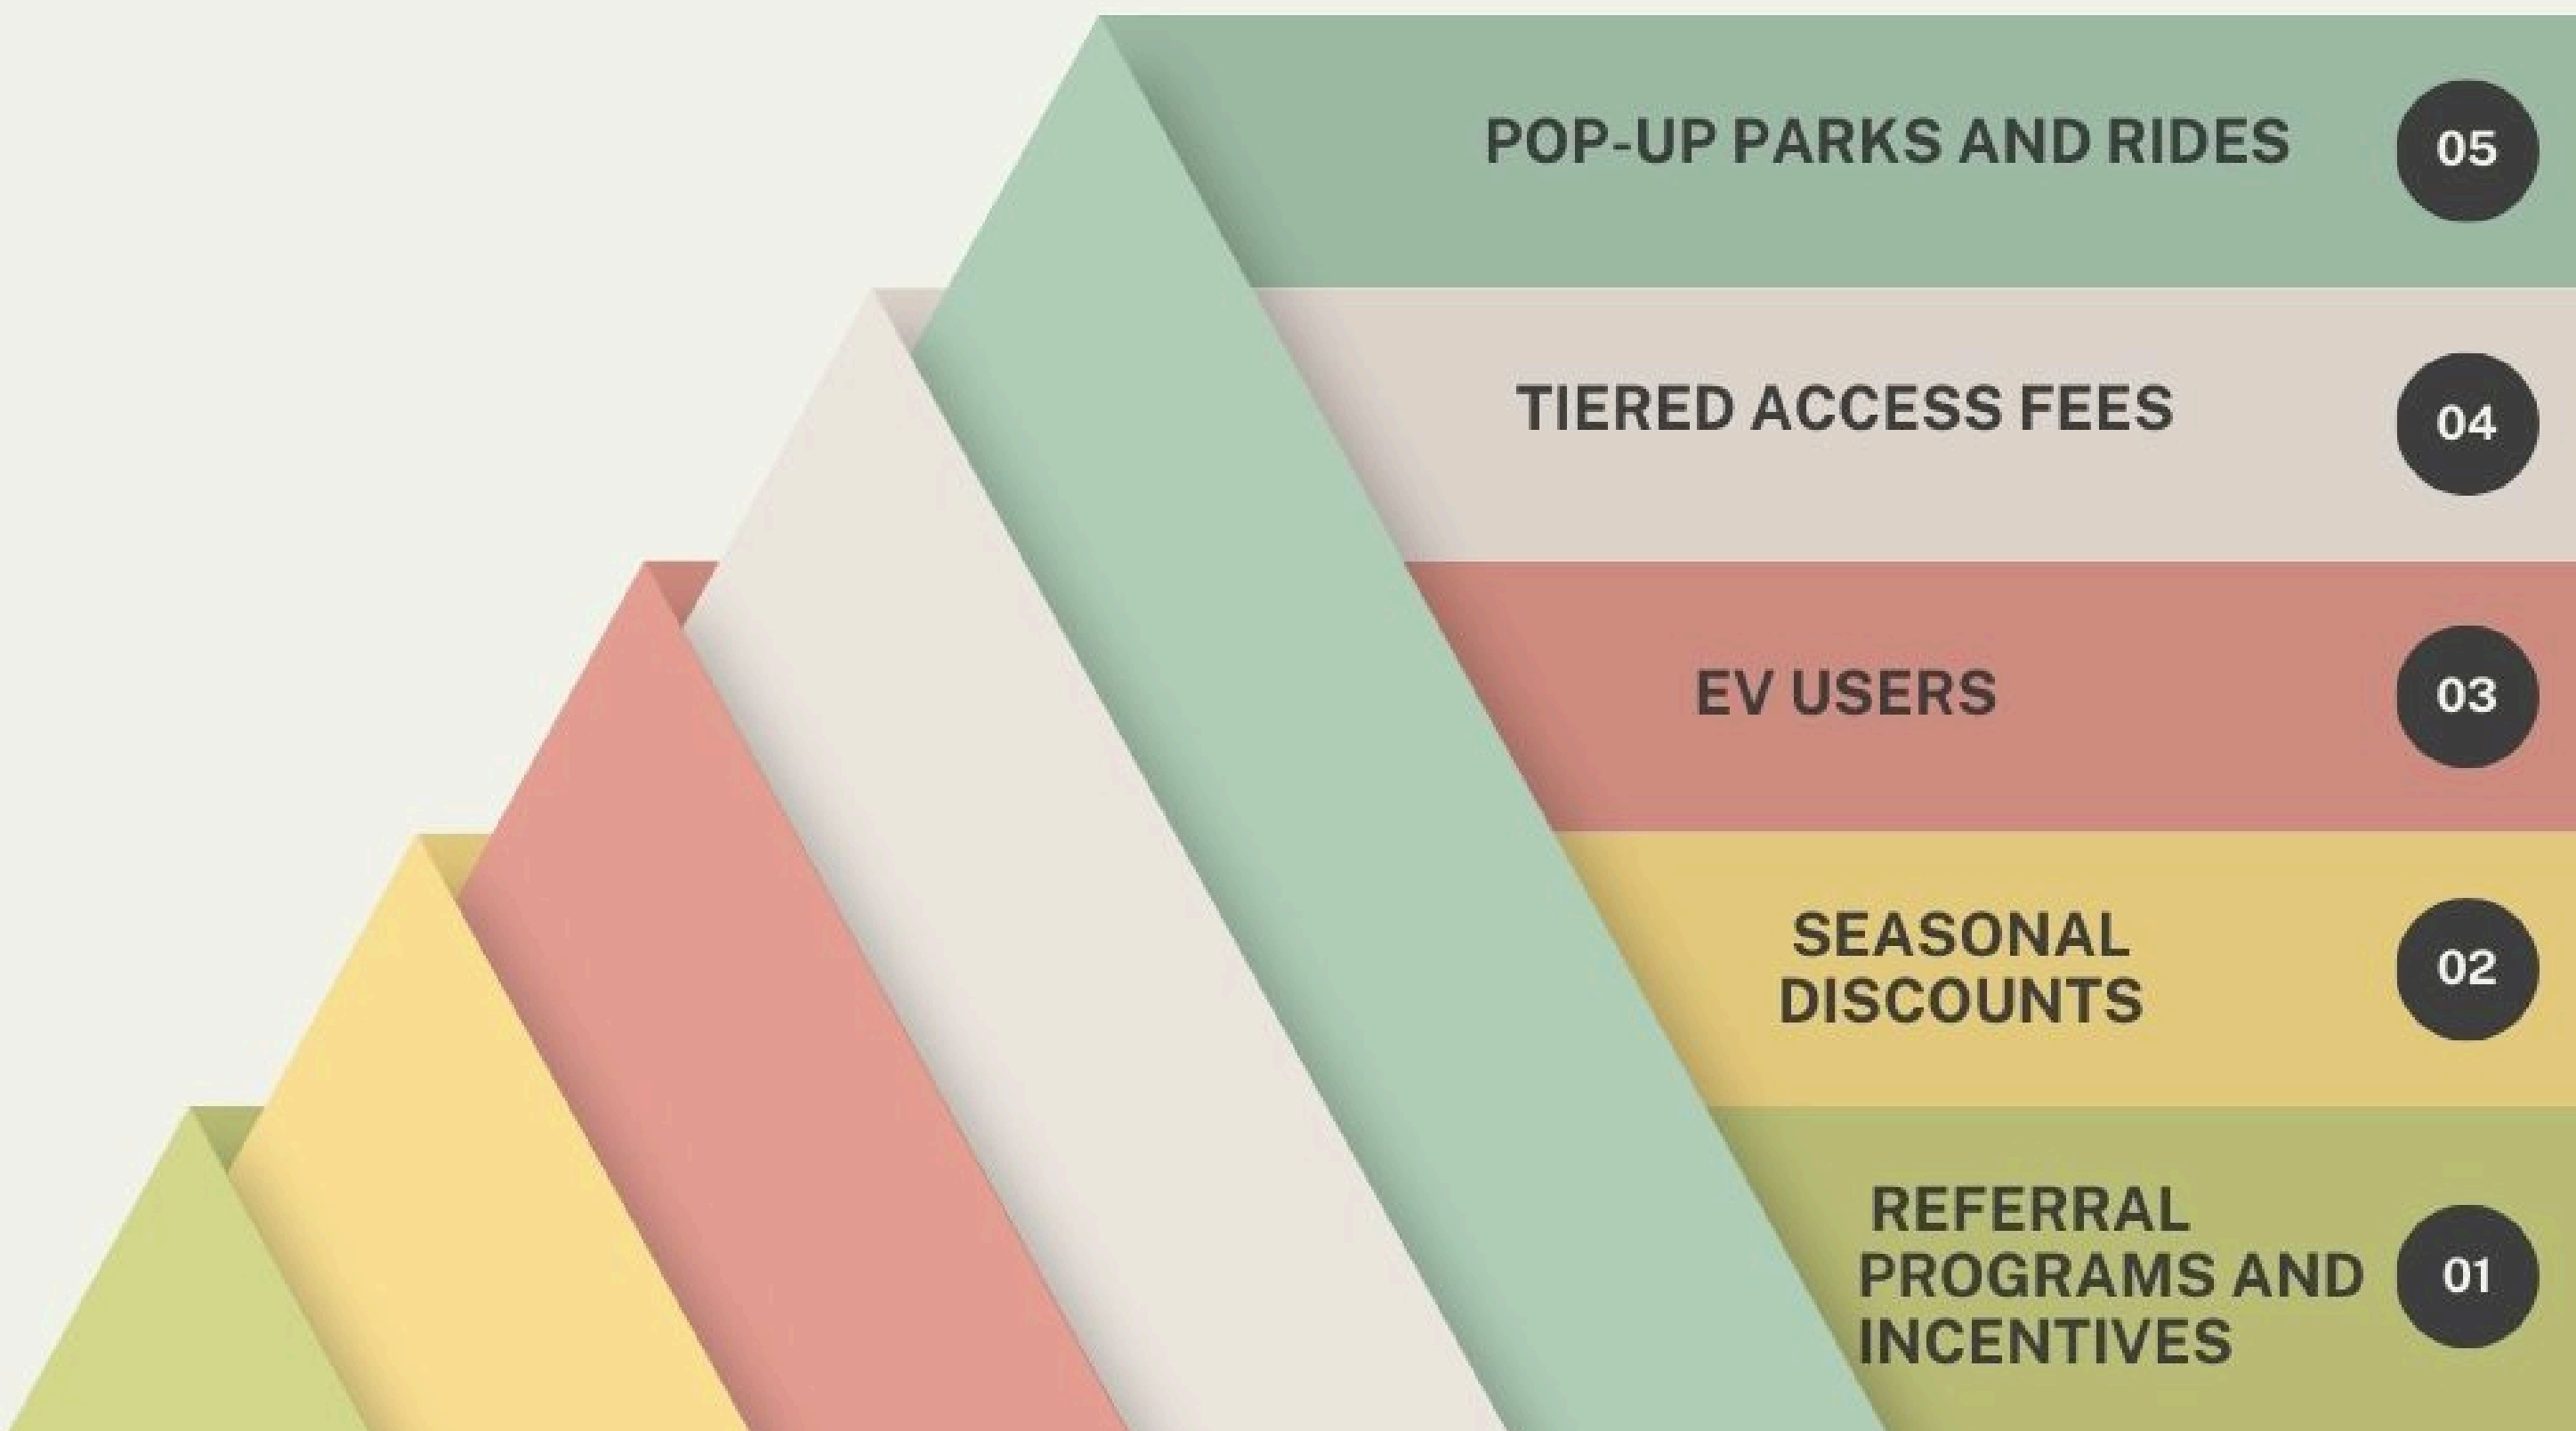

The statistics around parking lot crime paint a worrying picture:

- More than 1 in 10 property crimes occurred in parking lots or garages
- 2 million crimes occur in parking lots every year
- \$6B in property loss is associated with these crimes
- 7.3 % of all violent crimes occur in parking facilities
- Of those crimes, 16 % were violent crimes and assaults
